

Spas Cholakov

Software Developer (FULL STACK)

During my more than 18+ years of experience I have worked for various companies both on a full-time contract and as a part-time contractor. I developed my competences and gained deeper understanding in the industry.

I have worked with various Bulgarian companies, such as GIPS Bulgaria, BMS, Incorp, ZebrineX and many others, as well as international ones, such as StangaOne, Diversity, Infinigods, Farmata Energy and others.... **Personal Website:** www.cholakovit.com

Bulgaria, Plovdiv 4000

Expertise

- JavaScript 15+ years
- UI/UX - React 5+ years
- React 3D - Three, Fiber
- Typescript 5+ years
- Nodejs 5+ years
- ExpressJS, Fastify, NestJS
- Nextjs 4+ years
- Vue & Angular Basics
- GO Lang 2- year - Mid level
- Python Enthusiast - Beginner to Mid
- PHP 14+ years
- MySQL 15+ years
- Mongo DB 4+ years
- Online Marketing 10+ years
- web3

Language

- English
- Bulgarian

Experience

2023 - 2025

www.zebrinex.com - Senior Full Stack Developer

[References](#)

Responsibilities:

- Developing features and API's with high-quality
- Technical Guidance and Mentorship: Provide mentorship and guidance to less experienced developers, helping them overcome technical challenges and grow their skills in technologies
- Accessibility and Security: Ensure that all components meet accessibility standards and are compliant with web security protocols. Implement security-conscious practices in the codebase to safeguard user data

Main Technologies: React, NextJS, NodeJS, TypeScript, MongoDB, OracleDB

2022 - 2023

www.infinigods.com - Senior Full Stack Developer

Responsibilities:

- Developing features and pages with high-quality
- Integration web3 technologies and eCommerce features (metamask, NFT, Ethereum)
- Collaborate closely with product managers, designers, and fellow engineers to deliver high-quality, scalable products.
- Designing Database architecture
- Code refactoring and code reviewing
- Suggestions and ideas for improving the quality, performance, and efficiency

Main Technologies: React, Nextjs, Nodejs, TypeScript, MongoDB

2021 - 2022

www.wecraftmedia.com - Senior Full Stack Developer

Responsibilities:

- Participate in technical discussions and planning sessions
- Build and enhance user interfaces with React, ensuring seamless user experiences.
- Designing application architecture - System Design
- Implementing new functions, modules, or interfaces
- Analyzing and designing technical and functional solutions
- Ensure the highest standards of code quality and application performance through testing and adherence to best practices.
